

Tornado Strikes In Wisconsin, Leaves 29 Dead

MENOMONIE, Wis. (AP) — A house-splintering tornado cut a 90-mile swath through four northwestern Wisconsin counties Wednesday night, leaving at least 29 persons dead and more than 100 injured in its wake of devastation.

Full fury of the funnel struck the small community of Colfax where 100 houses were destroyed or badly damaged.

Ten of the known dead were found in Colfax ruins. Rescuers searched the wreckage for more bodies. At least 35 persons in the community of 1,000 were injured.

Only debris-littered basements remained in the northside residential district of Colfax. An open field nearby was a junkyard of wrecked cars, timbers from homes and shattered household goods.

Scores of farm homes and barns scores of farm homes and barns fell before the storm's power as it roared through rural areas around Menominee and Chippewa Falls.

Communications were knocked out and rescuers made farm-by-farm visits to check on welfare of residents.

After its destructive northside touch-down in Colfax, the twister skipped the business district to maul homes on the community's southside.

One relief worker said "Just 10 minutes is all it took." The blowing rain that accompanied the blow came down the street like a wave, she said.

Houses were smashed, trees splintered and stone buildings pulverized as the cruel storm, carrying torrents of rain, skirted the edge of the Colfax business district.

Bodies of 11 persons were recovered from the debris there. Another 35 residents of the community of 1,000 were hurt.

Sweeping out of the northwest, the "tornado" spun across four counties before blowing itself out southeast of Eau Claire.

Rural areas near Menominee and Chippewa Falls were hard hit.

The funnel carried such force it not only blew houses and barns

Stock Market Backs Off of Recent Highs

NEW YORK (AP) — The stock market backed away cautiously from its recent 1958 highs in moderately active trading early this afternoon.

Key stocks were mainly off fractions. Some losses went to around a point.

The market was consolidating its rise to new peaks for the year, market analysts said. Considerable switching from one stock to another was reported.

Expected continuation of present corporate income and excess tax rates and another drop in claims for jobless pay were some of the major news items behind the market.

Industrials retreated while rails were about even on average. Utilities, steels, oils and chemicals lost ground.

Lorillard and American Tobacco, both a bit higher in early trading, erased their gains.

Youngtown Steel, which moves more widely than other major steels, dropped more than a point. U.S. Steel and Bethlehem lost fractions.

Missouri-Kansas-Texas preferred was up about two.

American Cyanamid, Goodrich, Allied Chemical and Standard Oil (New Jersey) were off about a point each. Caterpillar was about a point to the good.

U.S. government bonds rose.

Boys' State Elects New Officials

LITTLE ROCK (AP) — Wendell Ross of Little Rock won election as governor of Arkansas Boys' State at nearby Camp Robinson today.

Ross, the Federalist candidate, defeated Nationalist Taylor Eubank of Pine Bluff, 444 votes to 231.

Ross' first official duty was to welcome Gov. Orval Faubus when the latter arrived to address the 688 youths attending Boys' State.

In balloting for all state positions, Federalist and Nationalist candidates won an equal number of offices.

Besides Ross, winners were John Raines of North Little Rock, lieutenant governor; Jim Box of Paris, secretary of state; Warfield Toss of Arkansas, treasurer.

Gaston Gibson of Lake Village, attorney general; Stewart Donahoe of North Little Rock, auditor; John Calhoun of Little Rock, land commissioner; and Frank Naka, mayor of Seattle, chief justice.

Big Welcome as DeGaulle Goes to East Algeria

CONSTANTINE, Algeria (AP) — Premier de Gaulle flew to east Algeria today for another enthusiastic welcome. Elsewhere, spokesmen for the nationalist Muslim rebels rejected his program to make them first-class Frenchmen.

Many Muslims were among the thousands who lined De Gaulle's route from the airport into Constantine, the mountainous, rebel-backed eastern sector's chief city.

But in Cairo and Tunis, spokesmen for the Algerian National Liberation Front (FLN), spearhead of the revolt against French rule, said their organization would not accept De Gaulle's program to integrate Algeria's European and Muslim population, each with equal rights and equal votes for all.

The FLN spokesman in Cairo said the rebel organization's office there would issue a communique answering De Gaulle.

Constantine was the second stop on De Gaulle's three-day Algerian tour to establish his government's authority over insurgent French colonists and military leaders and to launch a new drive to end the 43-month-old nationalist rebellion.

The massed thousands in Constantine cheered as De Gaulle declared from a flag-decked balcony, "All men here have the same rights—the same duties." The brief address was essentially the same as the one he delivered to a cheering throng of about 100,000 in Algiers Wednesday night.

House Rejects Plan of President to Cut Back Strength of the Army

Court Told Delay in Integration Might Spread

By CLIFTON WELLS

LITTLE ROCK (AP)—A delay in integration here might spread like wildfire across the border states and encourage segregationists, a Syracuse University educator said today in federal court.

Virgil M. Rogers, dean of the university's School of Education, was the first witness for the National Association for the Advancement of Colored People which opposes a School Board request that integration be postponed here for 2½ years.

With tighter discipline, Rogers said, Central High School "could open next fall and it would operate more orderly next fall than it would two years hence . . . to do otherwise would make the situation worse."

U.S. District Judge Harry J. Lemley asked Rogers whether he thought the problem could be more nearly solved without federal troops.

"I don't think it would be necessary to send troops," Rogers said. "It would be necessary to have a strong police force."

Rogers, who said he is a native of South Carolina but has not lived there for 25 years, said stronger discipline, including "a student spy system," would have successfully combated student troublemakers at Central High the past school year.

He described the reinstatement of one segregationist student, Sammie Dean Parker, as capitulation by school officials. The Parker girl was reinstated, he said, after she aired her grievances on television and filed a lawsuit.

Rogers said he had experience with school integration but not with the process of school desegregation.

Lemley under cross-examination Rogers said he was not prepared to say whether the board made a mistake in reinstating Sammie Dean.

"I don't know the details," he said.

He said he had school experience at Colorado, Illinois and Michigan. He said he had been in Little Rock a day or two about five or six years ago.

The School Board rested its case today with the testimony of Supt. Virgil Blossom who said he once asked a federal judge for aid of U.S. marshals in the racial crisis here last fall and was turned down.

Blossom was referring to U.S. District Judge Ronald N. Davies of Fargo, N.D., who formerly had jurisdiction of the case here.

LITTLE ROCK (AP)—Supt. Virgil Blossom testified today that during the Little Rock integration crisis last fall he asked a federal judge for aid from U.S. marshals and was turned down.

Blossom was the School Board's last witness this morning at a hearing in U.S. District Court in which the board seeks a 2½-year postponement of integration at Central High School.

"We asked Judge Davies for U.S. marshals for help in this case," Blossom said.

Air Force Air Missile Near Objective

CAPE CANAVERAL, Fla. (AP) — The Air Force has shown that its Thor intermediate range ballistic missile development program is well on the way toward meeting its operational objective.

The huge IRBM took another big step Wednesday when it was fired from a tacit launching pad for the first time. The test appeared successful.

The pad, a simply constructed steel platform, was a prototype of the one to be used when the missile is deployed with troops later this year.

Three squadrons are earmarked for assignment with the Royal Air Force in England by December.

Another operational vehicle—the transporter-erector—was used to place the Thor for firing. A conventional 100-foot service tower housed the missile, however, prior to launching.

The Air Force says that when the Thor is operational it will be fired in 15 minutes.

The missile was designed for a range of 1,500 miles but it reportedly has gone 2,000 miles.

Farm Bureau Head Raps Congress

WASHINGTON (AP)—The head of the American Farm Bureau Federation, says Congress has been fiddling away farm legislation at a time when action is needed to help agriculture find bigger markets and larger incomes.

The legislators, he said, are playing around with all kinds of "vote buying and socialist money-spending schemes" instead of acting on measures he thinks should get more attention.

President Charles B. Shuman leveled these charges against Congress in the June issue of the federation's magazine, The Nation's Agriculture.

The federation is advocating revisions in federal farm programs that would reduce government's role in the pricing and control of production of farm products. It favors lower price supports as an incentive for broadened markets.

Shuman said an omnibus farm bill being drafted in congress is a "political concoction" of good and bad measures designed to assure a presidential veto and thus to create a campaign issue. He said both Democratic and Republican members of Congress are guilty of this dangerous maneuvering to make political capital out of the problems of agriculture.

"It is doubtful if many people are being fooled by the present shenanigans in Washington," he added. "Certainly farmers are seeing through the smoke screen and are beginning to sort the fiddlers from those who work for constructive action."

He said farmers need help in their efforts to adjust to new market demands. He said they want a new and realistic price support program based on market prices rather than on arbitrary formulas.

Crossett Firm Questions Rates

LITTLE ROCK (AP)—Crossett Paper Mills Co. of Crossett yesterday asked the Arkansas Commerce Commission whether the Missouri Pacific Railroad could charge it interstate rates for hauling pulpwood from Texarkana to Crossett.

The company said the railroad wanted to charge the interstate rates because the railroad's shortest route between the two cities passes through Louisiana.

The company said the cheaper intrastate rates should be charged because both shipping and receiving points are in the same state.

Appropriates \$38.4 Billion For Defense

WASHINGTON (AP)—By a roll call vote of 224-156, the House today rejected President Eisenhower's plan to cut the Army's strength to 870,000 men during the next 12 months. It then passed a \$38,400,000,000 defense appropriation bill.

The roll call vote failed into the measure an amendment to finance a 600,000-man Army during the year starting July 1 at an additional cost of 99 million dollars.

Passage of the bill was by a 389-0 vote which sent it on to the Senate.

Today's vote on the issue of the Army's size upheld a tentative decision made Wednesday without a roll call. This question was the only controversy in the bill.

Adlai, Nixon May Campaign In California

WASHINGTON (AP) — Vice President Nixon and Adlai E. Stevenson may preview some 1960 presidential issues in California campaigns this fall.

Nixon, a Californian with high political stakes there, is expected to campaign for Sen. William F. Knowland, the party's nominee for governor; and Gov. Goodwin J. Knight, who won the GOP senatorial nomination.

Stevenson, twice the Democratic presidential nominee, has accepted tentatively an invitation to campaign in California for the Democratic gubernatorial nominee, INEDIE State Atty. Gen. Edmund G. (Pat) Brown, and Rep. Clair Engle, the party's senatorial nominee.

Stevenson has said he is not a candidate for the 1960 Democratic presidential nomination. But there have been some recent signs that close associates believe he would be available again.

If Brown pulls Knowland in November, he will be regarded as a presidential possibility himself. But the Californian is not widely known in other areas of the country and there is some belief that he might be willing to support Stevenson.

AP&L Names
Canaday as
Vice-President

LITTLE ROCK (AP)—Paul O. Canaday, a former Arkansas resident, today was elected executive vice president of Arkansas Power & Light Co., succeeding the late Ralph H. Ted of Little Rock.

Canaday, a veteran of 32 years in the electric power and light industry, will assume the position Sept. 1. He was chosen at the monthly meeting of AP&L directors here.

Ted died after a heart attack May 16.

Canaday, 54, was born at Henry, Tenn., and lived for a short time at Grayson, Ark. He attended public schools in Tennessee and was graduated from the University of Tennessee.

Canaday has served as assistant treasurer of United Gas Corp. of Shreveport, La., and vice president and director of the Mississippi Valley Generating Co. of West Memphis, the corporation involved in the cancelled Dixon-Yates contract there.

He has been a vice president of Middle South Utilities since 1949. He will give up the post when he joins AP&L.

Middle South is the holding company for AP&L and three other operating utilities.

On their road to the Southwest the founding fathers of the Republic of Texas—Austin, Bowie, Crockett & Co.—made many an over-night stop at the old Washington Tavern. They came down the old military road from Arkadelphia to Blewett and Washington, and rested at Washington before resuming their journey to Fulton and the hazardous crossing of Red river.

The old tavern was photographed by Hope Star for its Arkansas Centennial Edition in 1936, but was torn down in later years. From various photographs, however, a skilled painter of local origin has done the fine charcoal sketch shown in the engraving above. "The Tavern" is the work of Dr. William R. Orton, Jr., of the Mathematics Department of the University of Arkansas. Dr. Orton is the son of the late W. R. Orton of Fulton and Mrs. Mignon J. Horton, who now lives at Texarkana. Dr. Orton was graduated from Hope High School and won a Fulbright scholarship to study mathematics in Paris. While there he studied painting in his free time and has done many excellent sketches of historic spots in old Washington.

The Tavern sketch is one of a number of historical illustrations which will appear in a forthcoming brochure being prepared by W. H. Etter for the non-profit corporation which is seeking to restore the pioneer town's principal frontier attractions. The Tavern reproduction is a photo copy of the original sketch done by Hope Star on process film and engraved on the newspaper's leased electronic etcher.

Illinois Woman Injured in Auto Accident

An Illinois woman was injured about 7:20 a. m. Thursday in a car-truck accident on Highway 67, east near the Arkansas State Police Station.

The injured woman was listed as Mrs. Jess Endicott of Carmel, Ill. She sustained cuts and bruises and a foot injury. Her condition was not believed serious. Her husband and driver of the auto was not hurt.

Arkansas State Policeman Al Smith said the Illinois car topped the overpass and the driver was forced to brake to avoid hitting slow moving traffic. The auto skidded into an oncoming truck owned by H. O. Phillips. The car was forced off the highway and overturned down the embankment. The truck was not seriously damaged but the auto was practically demolished. Officer Smith said:

A Burdon-Cornelius ambulance brought Mrs. Endicott to a local hospital for treatment. The Endicott's reportedly were enroute home from the Rotary Convention just concluded at Dallas.

Blossom was referring to U.S. District Judge Ronald N. Davies of Fargo, N.D., who formerly had jurisdiction of the case here.

Blossom was the School Board's last witness this morning at a hearing in U.S. District Court in which the board seeks a 2½-year postponement of integration at Central High School.

"We asked Judge Davies for U.S. marshals for help in this case," Blossom said.

Evaluation of New Business Facts Differs

By SAM DAWSON
NEW YORK (AP)—Evaluating the new business statistics may be harder than usual this month. The temptation will be to read too much into them.

Business leaders already are split on the meaning of the old figures. And the new flood this week and next — on unemployment, industrial output, personal incomes — may shed less light than previously hoped.

Those who say they already can see the dawn of a new day will stress such things as the decline in unemployment between mid-April and mid-May, ignoring the fact that joblessness usually drops then, be times good or bad. "Those who say it's too early to tell about the recession's course yet will emphasize the expected rise in unemployment this month, ignoring the fact that it usually does rise when the schools let out a horde of new jobseekers."

Stockholders attending annual meetings have had a wide variety of forecasts to ponder. These range from flat statements by corporate executives that business is better and the outlook brighter to warnings that while there are glimmers here and there signs of economic strength are insufficient yet to warrant any real optimism.

Bankers and their economists also are inclined to read the tea leaves differently.

In its June survey the Guaranty Trust Co. of New York says: "Signs of leveling out are no longer faint and sketchy. Rather they have become quite numerous and are beginning to fall into an impressive pattern."

In its June letter the First National City Bank of New York says: "The business reports in May have included signs of improvement, which have improved business sentiment even though they supply no proof that a real turning point in the recession has been reached."

Guaranty Trust warns against believing there will be no more declines in some sectors of the economy, noting that "the summer period is always characterized by substantial seasonal swings, which are difficult to allow for."

And the National City hedges its stand by saying, "It is quite possible that this summer's flurry of plant shutdowns, inventory reductions, and increased unemployment will mark the climax of the decline."

Little Rock Man Drowns in a Pond

LITTLE ROCK (AP) — Robert Glen Goodwin, 25, of Little Rock, drowned yesterday when he stepped into deep water at a pond near here.

Goodwin couldn't swim. His body was recovered about 4 hours after the drowning.

Dodgers Have Home, Get Ready for the Braves

By THE ASSOCIATED PRESS

Things haven't looked this good for the Los Angeles Dodgers in a long, long time. They've gained voter approval for the Chavez Ravine deal. Johnny Podres has junked his four-game slump with a three-hit shutout. AND those crowd-collecting Milwaukee Braves are coming to town.

The Dodgers are still in the cellar, but it's only a 4 1/2-game spread to third place after Wednesday night's 8-0 job on Cincinnati. It was the first shutout of the year for Podres, who led the majors with six last season.

The Braves, again drawing a near-capacity crowd, moved into a one-game lead over second place San Francisco by beating the Giants 10-3 in 11 innings. St. Louis whipped Pittsburgh 6-3 and gained a virtual tie for fourth place with Chicago. The Cubs blanked Philadelphia again 11-0 while Ernie Banks belted his 15th and 16th homers, high in the majors.

In the American League, the Chicago White Sox beat New York 7-2. Second place Kansas City beat Washington 5-4. Cleveland defeated Boston 7-5 in 10 and Baltimore clipped Detroit 6-4.

Charley Neal drove in two Dodgers runs with a 420-yard triple to center and a solo homer that

Young Fullmer Knocked Out in the Third

WEST JORDAN, Utah (AP)—Veteran Joe Miceli gave young welterweight Jay Fullmer a rude welcome to big-time boxing Wednesday night, scoring an automatic third-round knockout.

Miceli weighed 147 to Fullmer's 140. It was the first time former middleweight champion Fullmer had been defeated in his professional career.

Fullmer was wary of Miceli's left hook from the start of the nationally televised bout. He had reason to be. The 29-year-old New Yorker, a veteran of 90 professional fights, calmly waded into Fullmer's brief rushes in the first two rounds, watching for an opening.

He found it in the third and belted Fullmer into the ropes with a vicious left hook. Fullmer didn't actually hit the deck as he floundered for his footing but referee Ken Shulsen counted it as a knockdown and waved Miceli away.

Fullmer came right back into another left that sent him to the canvas in a slow sag.

As the young West Jordan boy got up, glassy-eyed, he waded into a left uppercut that sent him sprawling.

Under Utah boxing rules the third knockdown in a round calls for an automatic knockout. The time was 2:09 of the third.

Fullmer was ahead on points, 28-26, when Miceli finished him off.

DOROTHY DIX

Young Bride Needs
Lesson In Maturity

Dear Dorothy Dix: Six months ago I married Gordon and am already sorry. I want my freedom. The fault isn't with my husband, he's a great guy, ambitious, hard-working and utterly devoted to me. I guess I love him, too, but I love my liberty more. It hurts to see my girl friends having a good time while I'm chained to a dishpan.

S. L.: In the first place, no one is chained to a dishpan or any other household task in this era of easy housekeeping. You took on an obligation and it's up to you to be a good sport and live up to it. You are paying a penalty for marrying too young, but no one ever solved a problem by ducking it. In time, these happy-go-lucky girl friends of yours will be married, too, and you'll all join forces in the baby carriage brigade. You wouldn't wretch on a business obligation, would you — or could you? If you bought an automobile and suddenly decided you didn't like the color, you would not expect the dealer to take it back. He'd think you were crazy. If you even tried, a matrimonial contract is much more serious. You entered into it freely, even anxiously. Make the best of it now and, believe me, you won't have any regrets. Don't let that wonderful husband of yours down; you probably won't find another as good.

Dear Dorothy Dix: Jim and I have been going out for three months and are very fond of each other. Trouble is when we're among friends he never pays special attentions. He has one set of actions for private, another for public. My friends say I imagine things.

JEANNE: And well you may be. I think you're inclined to be too possessive — a trait that has cost many a girl her boy friend. Certainly, a three month friendship doesn't give you the right to shakele the guy. Don't make demands, accept his friendship with faith, and listen to your friends. For once they are right.

Dear Dorothy Dix: My boy friend and I love each other but I don't understand him too well. He always asks me for money and never pays any back. He works and I don't know what he does with all this money.

EUGENIA: Dear Eugenia, I could suggest several things — none of them good. His kind of love will run out when your money does. Try putting your cash in a bank instead of his pockets.

Dear Dorothy Dix: Dick and I have gone together for two years and plan to be married in October. Suddenly I have cold feet and am not at all sure that I love him. We've broken up several times but

Investment Firms Agrees to Register

LITTLE ROCK (AP) — Representatives of General Insurance Investment Co. of Dallas, Tex., agreed yesterday to register with the Securities and Exchange Commission if they sell stock through interstate channels.

Two officials and a salesman denied SEC charges that they had previously transacted stock business in interstate commerce.

The three are Margaret Brand Smith, company president; her husband, Harry E. Smith, a director; and salesman Bennie L. Dean. U.S. District Judge Harry J.

Lemley signed consent decrees in which the company agreed to maintain an SEC registration certificate before selling the stock in state lines.

The decrees were entered in a suit filed May 19 by the SEC against Southwest Securities, Inc., of Little Rock and the investment company.

Federal court records here show that an SEC attorney on May 27 had asked dismissal of the suit against Southwest and two of the firm's officers.

Kentucky was the 15th state admitted to the Union.

To Dedicate New Farm Bureau Building

LITTLE ROCK (AP) — Farm delegations from nearly every county in Arkansas will be on hand here Sunday for the dedication of the new Farm Bureau Building, located near the State Capitol.

Featured speaker will be Walter Randolph of Birmingham, Ala., vice president of the American Farm Bureau Federation and president of the Alabama Farm Bureau.

Gov. Orval E. Faubus will join Harold F. Ohlendorf of Osceola, president of the state Farm Bureau, in a ribbon cutting ceremony.

Beef Gets Weekend Food Spotlight

By THE ASSOCIATED PRESS

Beef, in one form or another, gets the feature treatment in advertisements of many supermarkets and neighborhood grocery stores this weekend.

Chuck roast and rib roasts are the most frequently mentioned beef specials, although round steak, round roast, beef liver, beef tongue and even stew meat

also get into the act. Prices are not what most housewives would call the greatest bargain of the century.

Nor do the specials mean, in most cases, that the beef market is easing to any great extent. Supermarket meat specialists say it's largely a case of being tired of advertising everything but beef for a long while.

Lamb and pork also are being pushed by some stores this week, although leg of lamb is 4 to 10 cents a pound higher in places.

Supplies of lettuce are plentiful as nearby crops augment heads shipped from Western growing areas. Asparagus also is an outstanding item, although supplies

are tapering off. Spinach, radishes and onions from nearby fields, rhubarb, cooking greens and southern cabbage and squash also are very good buys.

In the same category are snap beans, broccoli, onions from Texas and potatoes. Endive and escarole are reported somewhat higher this week.

Bahamas and pineapples still rank as the best bets among fruits, but there's a promise of better bargains ahead from the first peaches of the season.

Sir Francis Drake destroyed the Spanish Armada near the French port of Gravelines on Aug. 8, 1588.

Navy Grads Told Aim Is Prevent War

ANNAPOLIS, Md. (AP) — President Eisenhower today told United States Naval Academy graduates their overriding goal in this nuclear age must be prevention of war and promotion of world peace.

But he said too that a just peace can be won only from a position of strength — and that the armed services "have become, indeed, great shields to guard the peace."

In sounding that note, Eisenhower also plugged for his controversial defense reorganization program without mentioning it specifically. He told the 800 academy graduates — being commissioned as ensigns in the Navy or second lieutenants in the Air Force or Marine Corps — to keep up to date on the principles of effective military management.

Then he added: "Obsolescence in military management and organization can be as dangerous to our nation as obsolescence in weaponry."

In an address prepared for the academy commencement exercises, the President said the target of all military officers in these times must be a just peace and prevention of war because winning that goal has become of transcendent importance.

"For modern war," he said, "is preposterously and mutually annihilative; peace is the imperative of our age."

The President traveled from Washington for this third visit to the Naval Academy since he took office in 1953. This was the first time he has attended graduation ceremonies here.

Juan, Eva Statues Are Beheaded

PIETRASANTA, Italy (AP) — Heroic 16-foot statues of Juan and Eva Peron lay in a marble works today, beheaded by order of the Argentine government.

"They did it last night," designer Ettore Tommasi said unhappily. "It's an act of vandalism, that's what."

Emilio Yauzequi, the economic counselor of the Argentine Embassy in Brussels, brought orders for the beheading to the marble works. The two heads, weighing almost 1,000 pounds each, tumbled and were covered with canvas.

The statues were ordered when Peron was at the peak of his power as dictator of Argentina. They were designed to go on top of a marble mausoleum for the Perons. But since 1955, when the dictator was overthrown, they had been standing at the marble works.

Neither the Argentine Embassy nor the marble works would disclose details of the financial settlement with Tommasi.

Judge Upholds KCS Assessment

LITTLE ROCK (AP) — A \$1,399,000 tax assessment for 1958 on Arkansas properties of the Kansas City Southern Railway Co. was upheld yesterday by Pulaski Circuit Judge J. Mitchell Cockrill.

It was the second KCS assessment affirmed by Cockrill within a month. Recently he upheld a \$3,881,000 assessment for 1958. Pending in his court is the railroad's appeal of its 1957 assessment of \$4,830,000.
